WORK EXPERIENCE

Mar 2022 - Jul 2022

Freelance Illustrator & Animator for La Brea Tar Pits

George C. Page Museum - Los Angeles, CA

- Illustrated four digital murals depicting environmental change of the Tar Pits through time.
- Animated separate paintings into short clips in Adobe After Effects that demonstrated and supported the paleontologists' research for their upcoming paper.
- Designed several storyboards and storytelling strategies along side the paleontologists to ensure their research was effectively presented.

Jan 2021 - May 2022

Freelance Digital Sculptor for LA Underwater Exhibit

Natural History Museum Los Angeles County - Los Angeles, CA

- Digitally sculpted a series of nine 3D Prehistoric animals that existed in L.A. and worked along side the lead animator in preparing the models for animation.
- Brought prehistoric models to life with scientific accuracy through collected research, data, and with the collaboration of NHMLA paleontologists and exhibits team.
- Illustrated several 2D conceptual assets depicting the final rendered models and their proposed musculoskeletal anatomy.

Apr 2016 - Sep 2016

Lead Airbrush Technician

Synergy Design Concepts - Chatsworth, CA

- Supervised the painting Department and led the team on a per-project basis.
- Responsible for painting and performing final quality-checks before delivering to clients.
- Trained team on project-based production requirements and workplace efficiency.

PROJECTS

Sep 2020

NHMLA Happy Hour Presentation

Natural History Museums of LA County - Los Angeles, CA

- Collaborated with the NHMLA to prepare an online presentation.
- Prepared detailed presentation on the process of scientific sculpting and fabrication.
- Presented to Museum Members and Fellows.
